Conrad began by setting the scene historically nicely picturesque Then on to experience the protagonist's interwoven and delicate relationships feeling as if you were right beside him all the while. Excellent read.1 of 2 people found the following review helpful. Under-rated!By hhphotographyI'm not one who enjoys reading much. This book is an exception. I love the mood of this book, the characters are very interesting. The pages which follow have been extracted from a pile of manuscript which was apparently meant for the eye of one woman only. She seems to have been the writer's childhood's friend. They had parted as children, or very little more than children. Years passed. Then something recalled to the woman the companion of her young days and she wrote to him: "I have been hearing of you lately. I know where life has brought you. You certainly selected your own road. But to us, left behind, it always looked as if you had struck out into a pathless desert. We always regarded you as a person that must be given up for lost. But you have turned up again; and though we may never see each other, my memory welcomes you and I confess to you I should like to know the incidents on the road which has led you to where you are now."

About the AuthorJoseph Conrad was a Polish novelist who lived most of his life in Britain and didn't learn English until age 21. The young Conrad lived an adventurous life involving gunrunning and political conspiracy, and apparently had a disastrous love affair that plunged him into despair. He served 16 years in the merchant navy.In 1894, at age 36, Conrad reluctantly gave up the sea, partly because of poor health and partly because he had decided on a literary career.
